“This page intentionally left blank”

-REGULATIONS-
POTOMAC RIVER FISHERIES COMMISSION
FOR LICENSING AND TAKING OF FINFISH, CRABS,
OYSTERS, AND SOFT SHELL CLAMS FROM THE
WATERS OF THE POTOMAC RIVER

- Issued By -
POTOMAC RIVER FISHERIES COMMISSION
222 Taylor Street
P.O. Box 9
Colonial Beach, Virginia 22443

Pursuant to the Provisions of the Potomac River Compact of 1958, as duly enacted into law by the General Assemblies of the States of Maryland and Virginia, and duly ratified by the Congress of the United States of America, the following regulations are duly enacted and promulgated by the Potomac River Fisheries Commission, as follows:

REGULATION I

Section 1Obtaining a License

Sec. 1(a) Application/Eligibility for License

Commercial licenses, as herein defined, shall only be issued to persons who are at least fourteen (14) years of age at the time of issuance of such license. Any citizen of the States of Maryland or Virginia, who has resided in either or both said states for at least twelve (12) months immediately preceding their application, and desiring to commercially take and catch oysters and or clams; or any citizen of the United States desiring to operate any vessel for the purpose of carrying fee paying persons to catch or attempt to catch fish, crabs, clams or oysters in the waters of the Potomac River, as defined and provided for in the Potomac River Compact of 1958, shall first apply for and obtain a numbered license from the Potomac River Fisheries Commission, or from an officer or agent duly designated by the said Commission to issue same. Each said license shall be good for the licensing year January 1st through December 31st, except gill nets and the licensing for the taking and dealing in oysters, which shall be issued for a licensing year from July 1st through June 30th of each year. No license issued under the authority of the Potomac River Fisheries Commission shall be transferable in any manner.

Regulation I

Sec. 1(b) Unlawful Use of License and Giving False Information

It shall be unlawful for any person: (1) to permit any other person to use or exhibit his or her personal oyster tonging, hand scraping or clamming license, (2) to display or exhibit any oyster tonging, hand scraping or clamming license not issued to that person, (3) to give false information concerning his or her identity, or (4) to permit any other person whose licensing privileges are suspended or revoked to use or exhibit his or her vessel or gear type license during such suspension or revocation period.

Sec. 1(c) Limited Entry Fisheries

A limited entry fishery is a fishery where the number of licenses available are limited by regulation or order of the Commission. Such limited entry fishery licenses are renewable annually to the licensee subject to the following conditions for each such fishery license:

- (i) Applicants who submit applications by mail assume the risk of delay on the part of the postal service.
- (ii) Applications for renewal of such gill net licenses must be submitted only during November, December or January of the license year for which the license is intended.
- (iii) Applications for renewal of all other such licenses must be submitted only during December preceding the year for which the license is intended or during January of the year for which the license is intended.
- (iv) Any such license, not renewed on or before the last day of January, which is not a Saturday, Sunday or legal holiday, may be renewed by the licensee only, upon the payment of twice the license fee or \$100.00 whichever amount shall be the greater, in addition to the published fees, on or before the last day of April, which is not a Saturday, Sunday or legal holiday at the principal office of the Commission. Any license renewed under this sub-section (iv) and then surrendered under Regulation I, Section 1(e), or any such license not renewed by such time shall become non-renewable and available under Regulation I, Section 1(d).

Sec. 1(d)(1) Obtaining a Limited Entry Fishery License

Licenses for such fisheries shall be available on a first come first serve basis until the maximum number has been issued in any given license year. Thereafter, persons desiring to obtain a limited entry fishing license shall register with the Commission between December 1st and the last day of January that is not a Saturday, Sunday or legal holiday. The registration shall include the person's name and address and a non-refundable \$25.00 fee. No person may register more than once per year per fishery and the

Regulation I

registration shall be for that year's random drawing only. On the first Monday of February at 12 o'clock noon, a public random drawing will be held to select the appropriate number of persons per fishery who will be given the opportunity to purchase subject license(s) valid for the balance of the year. Notice of being selected will be mailed, first class postage prepaid, to the persons selected at the address shown on the registration form. Failure to obtain said license(s) by March 31st will forfeit the license(s), thereby making it (them) available for the next year's drawing.

Sec. 1(d)(2) Limited Entry License Limitations

Any limited entry license obtained through a random drawing pursuant to Regulation I, Section 1(d)(1) which is not renewed as provided for in Regulation I, Section 1(c) or any such license surrendered to the Commission within 5 years of the original date of issue for that license, shall become available through the next appropriate random drawing held pursuant to Regulation I, Section 1(d)(1).

Sec. 1(e) Death of Licensee or Surrender of License

Upon the death of the licensee, a limited entry license or a fixed fishing device license and all rights pertaining thereto shall pass to those lawfully entitled thereto. If any licensee desires to surrender his or her limited entry or fixed device license, he or she may do so by delivering same to the Commission office at any time together with a statement of intent to that effect. The Commission may thereupon issue another limited entry or fixed device license for the surrendered license to any other applicant who has made timely application therefore.

Section 2License Fees – Commercial

Sec. 2 Commercial License Registration

Any person desiring to purchase any Potomac River Fisheries Commission commercial fish, crab, clam, or oyster license or licenses on or after July 1st each year shall first be registered with the Commission for a fee of \$50.00. This registration fee must be paid in full, in addition to the published license fees, and prior to any commercial license being issued. Only one registration fee per person per year (July 1st through June 30th next) is required.

Regulation I

Crab

Sec. 2(a) Dip Nets, Trot Lines

For each boat used in taking or catching crabs commercially by dip nets, trot lines or patent trot lines, a license fee of \$65.00. Each buoy used to identify a crab trot line must be easily visible on the surface and must legibly display the letters "CL" and the tag number herein provided. The letters and numbers shall not be less than one (1) inch in height on a contrasting color background. The tag must be displayed in a clearly visible position on the outside starboard side of the vessel. Any crab trot line found in the water not so identified may be seized by the enforcement officers and shall be subject to forfeiture.

Sec. 2(b) Peeler Traps

For each peeler trap, a license fee of \$20.00.

Sec. 2(c) Patent Trot Lines

Repealed.

Sec. 2(d)(1) Crab Pots (**see also Sec. 2(d)(3)**)

A maximum number of crab pot licenses may be established from time to time by the Commission thereby making it a limited entry fishery. For each boat or vessel used in taking or catching crabs with crab pots, as defined in Regulation VII, Section 1(a), a license fee of \$135.00 for up to 300 crab pots, \$200.00 for up to 400 crab pots and a license fee of \$265.00 for up to 500 crab pots shall also be available from 1995 to those persons holding a valid 1994 crab pot license. Providing that thereafter, such persons may continue to renew their license for the number of pots selected in 1995 or for a lesser number of pots as set forth above, but in no instance for more than the number of pots licensed in the preceding year. When a license is surrendered and reissued, it shall be issued for the same or less amount of crab pots. In no instance shall a commercial crab pot license increase in the number of pots associated with the license. No more than one crab pot license may be issued to any person and/or for any single boat. The maximum number of pots may not exceed the number specified on the license. REGULATION VIII
OYSTER MANAGEMENT RESERVE PROGRAM

Purpose

The Potomac River Fisheries Commission (PRFC) convened a Blue Ribbon Oyster Panel to develop a Revitalization Oyster Plan for the Potomac River public oyster fishery as a means of “jump starting” the oyster resource in the river. The Panel was directed to develop a financially self-sustaining “put and take” public oyster fishery; consequently the Oyster Management Reserve Program was designed and approved by the Commission.

Section 1Oyster Management Reserve Program

The Commission hereby establishes this Regulation with provisions that are designed for and apply only to the Potomac River Oyster Management Reserve Program. Except as noted herein Regulation VIII, the provisions of Regulations I through VII do not apply to the Oyster Management Reserve Program. For the first two years of the Program (2012 and 2013), the Commission will provide funds, purchase triploid eyed oyster larvae and have it set on shell. Participants will plant the spat on shell on the Oyster Management Reserve Area for grow out. From the third year forward, the Program will be self-sustaining and funded by the participants.

Section 2Definitions

Hand Tongs – As defined in Regulation II, Section 1(a).

Hand Scrape – As defined in Regulation II, Section 1(e).

Natural Person – As defined in Regulation I, Section 3(a)(2).

Oyster Management Reserve License – A commercial PRFC oyster license, valid exclusively for catching or attempting to catch oysters on any Oyster Management Reserve Area in the Potomac River.

Participant – Any person or natural person who has purchased a PRFC Oyster Management Reserve License in the Oyster Management Reserve Program.

Person – As defined in Regulation I, Section 3(a)(1).

Power Assisted Hand Tongs – As defined in Regulation II, Section 1(b).

REGULATION VIII

Principal Licensee – A natural person who is named on the Oyster Management Reserve License as the assigned user of the License by the person (participant) who purchased the License.

U.S. Standard Bushel Basket – As defined in Regulation II, Section 3(a).

Section 3 General Provisions

The provisions of Regulation I, Section 6 and Regulation III, Section 1, Section 2, Section 3, Section 4, and Section 5 apply to the Oyster Management Reserve Program.

Section 4 Oyster Management Reserve License

The Oyster Management Reserve License is valid exclusively for taking, catching or attempting to take or catch oysters on any Oyster Management Reserve Area in the Potomac River, and no other oyster license is required. This license shall be good for the licensing year January 1st through December 31st each year. No person may purchase more than three (3) Oyster Management Reserve Licenses.

Sec. 4(a) Natural Person as a Participant (i.e. individual)

Any natural person desiring to participate in the Oyster Management Reserve Program shall pay a license fee of \$550.00 (see Section 5 of this Regulation) between December 1 (for the following year) and March 31 each year and hold a valid PRFC Commercial License Registration. This license cannot be used by anyone except this licensee (participant). The participant is responsible for complying with all provisions in this Regulation, including submitting oyster harvest reports and complying with the identification tagging requirements.

Sec. 4(b) Person as a Participant (i.e. company)

Any person desiring to participate in the Oyster Management Reserve Program shall pay a license fee of \$550.00 (see Section 5 of this Regulation) between December 1 (for the following year) and March 31 each year and hold a valid PRFC Commercial License Registration. A natural person must be named as “principal licensee” on the Oyster Management Reserve License as the assigned user of the License, by the participant. This license cannot be used by anyone except the principal licensee. Except when renewing this license, if the participant wants to assign this license to a different natural person as the principal licensee, there will be a fee of \$50.00. The participant is responsible for complying with all provision in this Regulation, including submitting oyster harvest reports and complying with the identification tagging requirements.

REGULATION VIII

Sec. 4(c)(1) Crew

Any participant who purchased an Oyster Management Reserve License, under Section 4(a) or 4(b) above, may purchase up to two (2) additional license(s) for crew member(s) at a fee of \$600.00 each. Each crew license entitles the participant to an additional share of the harvest. Such crew member license is only valid when an eligible participant or principal licensee with a valid Oyster Management Reserve License is aboard the boat or vessel.

Sec. 4(c)(2) Helper

Any participant who purchased an Oyster Management Reserve License, under Section 4(a) or 4(b) above, may purchase one additional license for a helper at a fee of \$100.00. A helper license, so purchased, does not entitle that participant to an additional share of the harvest. Such helper license is only valid when an eligible participant or principal licensee with a valid Oyster Management Reserve License is aboard the boat or vessel.

Sec. 4(d) Possession of Valid License

Each person on board any boat taking, catching or attempting to take or catch oysters on any Oyster Management Reserve Area is required to possess a valid Oyster Management Reserve License for the year of such taking.

Section 5Program Eligibility Requirements

Sec. 5(a) Delayed Entry

There is an initial three-year delay for harvesting oysters on any Oyster Management Reserve Area for each participant entering the Oyster Management Reserve Program:

- (1) Each participant must purchase an Oyster Management Reserve License and hold a valid PRFC Commercial License Registration (CLR) for the previous three (3) consecutive years, to be eligible to take, catch or attempt to take or catch oysters on any Oyster Management Reserve Area.
- (2) A crew license purchased by a participant must also have been purchased for the previous three (3) consecutive years to be eligible to take, catch or attempt to take or catch oysters on any Oyster Management Reserve Area.
- (3) A helper license may be purchased by a participant at any time.

REGULATION VIII

Sec. 5(b) 2012 Season Participants

The 20 participants entered in the Oyster Management Reserve Program for the 2012 season, who each purchased an Oyster Hand Scrape License and paid the surcharge fee, will be grandfathered in for the 2013 season when they purchase an Oyster Management Reserve License, and it will be counted as year-2 in the Program for those 20 people.

Section 6Oyster Management Reserve Areas Established

Sec. 6(a) Areas Defined

Cobb Island Bar (360 acres) and Ragged Point Bar and Addition (302 acres), as charted on the Natural Oyster Bar charts #25-4, #26-10 and #26-11, are designated as Oyster Management Reserve Areas. The Commission may designate other Potomac River areas or oyster bars in the future by Order of the Commission, as the Program expands.

Sec. 6(b) Oyster Management Reserve Area Closed

It shall be unlawful for any person to take, catch or attempt to take or catch oysters by any means at any time on Ragged Point Bar and Addition, or other areas/bars designated as Oyster Management Reserve Areas unless the person is a participant, crew, or helper who meets the eligibility criteria in Section 5(a) of this Regulation and the Oyster Management Reserve Areas have been announced as being open and ready for harvest by the Commission.

Section 7Provisions for the Taking or Catching of Oysters

Sec. 7(a) Devices for Taking or Catching Oysters

An eligible participant or crew may take, catch or attempt to take or catch oysters from any Oyster Management Reserve Area by hand tongs, power assisted hand tongs or by hand scrapes and by no other means.

Sec. 7(b) Dates and Times for Taking Oysters

The dates and times during which oysters may be taken or caught on Oyster Management Reserve Areas will be determined by a majority vote of the eligible participants (see Section 5(a)) each year. The Commission will then announce the Oyster Management Reserve Areas as being open and ready for harvest and will notify all eligible participants.

REGULATION VIII

Sec. 7(c) Containers for Oysters

All oysters on board the boat which have been harvested from any Oyster Management Reserve Area must be contained in PRFC approved containers, no larger than a U.S. Standard Bushel Basket.

Sec. 7(d) Identification Tags Required

Each container of oysters harvested from an Oyster Management Reserve Area must be tagged with a completed PRFC issued Oyster Management Reserve Area identification tag before leaving the harvest area. No container of oysters harvested from an Oyster Management Reserve Area may be removed from the boat without said tag being firmly affixed to the container. These identification tags may be purchased from the PRFC for \$2.00 per tag. Unused tags can be returned to the PRFC for a refund prior to tags being purchased for the next year.

Sec. 7(e) Reporting Requirements

Every participant shall keep an accurate and complete daily account of his or his boat's oyster catches from the Oyster Management Reserve Areas on forms supplied by the Commission. Such daily records of the oyster catches shall be delivered to, or mailed in time to arrive at, the Commission office no later than Thursday of the following week.

Section 8Limited Entry

When a cap on the number of Oyster Management Reserve Licenses is recommended by participants and approved by the Commission, then the Program becomes a limited entry plan. At the limited entry stage, Oyster Management Reserve Licenses will be allowed to be surrendered and reassigned (Regulation I, Section 1(e)) by the Commission, for a fee of \$100.00

Section 9Commission Responsibilities

The Commission will be responsible for: accepting and tracking the fees paid into the Oyster Management Reserve Program; tracking and notifying eligible participants; providing the group of participants (by April 15 each year) an accounting of the amount of money available for buying oyster seed; checking on current cost and availability of seed from the hatcheries; and providing results of the oyster survey on the Oyster Management Reserve Areas. Commission staff will coordinate the logistics of planting oyster seed with the participants.

REGULATION VIII

Section 10Participant's Guidelines

The participants invested their money, time, and energy in this Oyster Management Reserve Program with the vision of developing a financially self-sustaining "put and take" public oyster fishery in the Potomac River. The Commission supports this Program and is willing to allow the participants the flexibility to develop their own guidelines for their recommendations for such things as planting sites, sources of seed, dates and times to open the reserves, size or harvest limits. This Program should not constrain the participants from catching and marketing these oysters at the optimal time in the best interest of the participants.

Section 11Severability Clause

If any word, clause, sentence, paragraph or section of the regulations shall, for any reason, be adjudged by any court or competent jurisdiction to be unconstitutional and invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the word, clause, sentence, paragraph or section thereof so found unconstitutional and invalid.

Section 12Effective Date

These regulations shall take full force and effect thirty (30) days, or more, after their final adoption by the Commission.

**MARYLAND AND VIRGINIA
POTOMAC RIVER COMPACT OF 1958
PREAMBLE**

Whereas, Maryland and Virginia are both vitally interested in conserving and improving the valuable fishery resources of the tidewater portion of the Potomac River, and

Whereas, certain provisions of the Compact of 1785 between Maryland and Virginia having become obsolete, Maryland and Virginia each recognizing that Maryland is the owner of the Potomac River bed and waters to the low water mark of the southern shore thereof, as laid out on the Matthews-Nelson survey of 1927, and that Virginia is the owner of the Potomac River bed and waters southerly from said low water mark as laid out, and that the citizens of Virginia have certain riparian rights along the southern shore of the River, as shown on said Matthews-Nelson survey, and, in common with the citizens of Maryland, the right of fishing said River, Maryland and Virginia have agreed that the necessary conservation and improvement of the tidewater portion of the Potomac fishery resources can be best achieved by a Commission comprised of representatives of both Maryland and Virginia, charged with the establishment and maintenance of a program to conserve and improve these resources, and

Whereas, at a meeting of the Commissioners appointed by the Governors of the State of Maryland and the Commonwealth of Virginia, to-wit: Carlyle Barton, M. William Adelson, Stephen R. Collins, Edward S. Delaplaine and William J. McWilliams, Esquires on the part of the State of Maryland and Mills E. Godwin, Jr., Howard H. Adams, Robert Y. Button, John Warren Cooke and Edward E. Lane, Esquires, on the part of the Commonwealth of Virginia, at Mount Vernon, in Virginia on the twentieth day of December, in the year one thousand nine hundred and fifty-eight, the following Potomac River Compact of 1958 between the Commonwealth of Virginia and the State of Maryland was mutually agreed to by the said Commissioners:

Now, therefore, be it resolved, by the Commissioners appointed by the Governors of the State of Maryland and the Commonwealth of Virginia, meeting in joint session, that they do unanimously recommend to the said respective Governors that there be a new Compact, to be designated as the "Potomac River Compact of 1958", and that the said new Compact be referred as promptly as possible to the Legislatures of the State of Maryland and the Commonwealth of Virginia for appropriate action and to the end that after ratification and adoption by said Legislatures the same be submitted to the Congress of the United States for approval.

Potomac River Compact

THE POTOMAC RIVER FISHERIES COMMISSION, having found it desirable to develop guidelines to foster cooperation between the haul seine fishery and the crab pot fishery regarding the use of the same areas; and wishing this to be a voluntary system, **HEREBY ESTABLISHES THE FOLLOWING GUIDELINES:**

FOR HAUL SEINE LICENSEE:

- a) A haul seine licensee, wishing to haul a particular area where crab pots are set, is to buoy the area with at least four (4) buoys that project at least 4 ft. above the water's surface and have the licensee's name and telephone number in legible letters and numbers.
- b) Prior to placing the buoys, the Maryland Department of Natural Resources (MdDNR) (800-419-0743) or the Virginia Marine Resources Commission (VMRC) (800-541-4646), depending on which shore is to be marked, and the Potomac River Fisheries Commission (800-266-3904), must be notified of the specific area where the haul is to be made and the intended date and time.
- c) Buoys must be placed 3 days prior to the intended haul and must be removed as soon as the haul is complete, but not later than 7 days of being set and,

FOR CRAB POT LICENSEE:

- d) Once the area is buoyed, no additional crab pots are to be set within the confined area.
- e) Any crab pots set within the confined area should be moved outside of that area.

POLICY

COMMERCIAL STRIPED BASS HOOK & LINE TAG EXCHANGE PROGRAM

The Potomac River Fisheries Commission (PRFC), having found it desirable to develop guidelines to allow participants in the commercial Striped Bass hook & line fishery to transfer tags to other eligible participants in the fishery, wishing this to be a voluntary, opt in process, HEREBY ESTABLISHES THE FOLLOWING GUIDELINES:

WHO IS ELIGIBLE:

- a) Any PRFC commercially licensed hook & line fisherman who has not had a striped bass hook & line conviction in the past year, is not currently on probation, and who has not had a Striped bass hook & line tag audit penalty in the past year.
- b) Any PRFC licensed hook & line fisherman who has unused tags may transfer his tags.
- c) Any eligible PRFC licensed hook & line fisherman (transferee) who has used ALL of his/her tags for the current fishing season may receive tags from any eligible PRFC licensed hook & line fisherman (transferor) who has unused tags for that season.

HOW TRANSFERS ARE DONE:

- a) In order to participate in the PRFC Commercial Striped Bass Hook & Line Tag Exchange Program, prospective participants must opt in by agreeing to allow PRFC to provide some or all of their personal contact information (name, phone number, address, and/or email) to other opt in participants.
- b) Transferees must use all of their tags (tag out) before they can receive any tags through a transfer.
- c) Both parties must come in person at the same time to the PRFC office, or alternatively, a notarized letter giving permission from the transferor to the transferee must be brought in at the time of the transaction. Proxies for either party will not be allowed. Both parties will be required to have their catch records up to date.
- d) Each individual transfer of tags between two H&L licensees will be considered a transaction, and will be subject to a \$25 administration fee.

EACH TRANSFER TRANSACTION CONSISTS OF TWO PARTS:

- a) The H&L licensee (transferor) transferring tags will first conduct a transaction to return a specified quantity of tags to PRFC, and designate a recipient of the transfer (transferee). The transferor must bring his/her tags to the PRFC office.
- b) The designated H&L transferee will conduct a transaction at the PRFC office to be reissued the specified quantity of tags being transferred, and pay an Administrative fee of \$25 (flat rate regardless of the number of tags transferred). Tags are then officially assigned to the H&L transferee, and they become his/her responsibility.

POLICY

OTHER REQUIREMENTS:

- a) The number of tag transactions that any qualified H&L participant may conduct through the course of the season is unlimited.
- b) A minimum of ten (10) tags must be transferred. All transfer of tags must be in consecutive order.
- c) The PRFC Commercial Striped Bass Hook & Line Tag Exchange Program would be evaluated prior to the 2017 season. A review would occur during summer/fall of 2016.

THE POTOMAC RIVER FISHERIES COMMISSION will furnish a copy of these guidelines to all PRFC commercial Striped Bass hook & line licensees, and further the Commission will monitor and evaluate this tag exchange program during the 2016 fishing season.
